Notice

All Tuscumbia City Schools have been inspected by an EPA-approved asbestos inspector and maintain a management plan file in the school office as required under the AHERA regulations. The file is available to any parent to view in the Board of Education.

Most of our asbestos material is non-friable and is in the form of floor tiles. These materials are well maintained and are not a health hazard to the students. The law requires that we make this notice to all employees, students and staff annually.

We are glad to provide a healthy atmosphere for students and staff.
